For Christmas, the children of Nyandiwa offer their friends and supporters of the Harambee Project the riches they have at their disposal: the beautiful smile and the omena (small fish). The operative staff and the Steering Committees of IKSDP Italy and Kenya join the children and wish a Merry Christmas to everyone.

We arrived in December and we will help you with Christmas gifts!

Thanks to #Harambee Project ONLUS you can make yourself, your loved ones and all the children and young people of the IKSDP center in #Nyandiwa happy. With a gift chosen from Harambee's wish list, you will support the education and development of the entire Nyandiwa community.

A small gesture that makes the difference!

"Working together for a concrete and sustainable development"

The IKSDP project aims at enhancing and exploiting the local natural and renewable resources more and more: in the naturalistic site of Kitawa (17 hectares of arid land, now irrigated) a part of the land is cultivated, while another area is reserved for research, given the richness of the ecosystem.

From this year we have faced, together with the authorities and local communities, the environmental and social challenges, within the objectives of the Agenda 2030 of the UN-Sustainable Development Goals-SDGs (Framework Agreement signed in September 2019 at the Mediterranean University of Reggio Calabria).

Another important step forward: from last year a "Water Bus" service connects Nyandiwa with Sori, Mbita and all the main Kenyan islands of Lake Victoria (Mfangano, Kiwa, Remba).
