

The "Harambee Gwassi Project" is an International Solidarity Project started in 1983, in one of the poorest areas of Kenya, on the shores of the Victoria Lake, supported by the voluntary service of 'Brownsea Foundation' and 'Kenya Scout Association'. The project takes place in the peninsula of Nyandiwa, in the Gwassi Division of Suba District and covers an area of about 200 km.

The project name 'Harambee', that means "Work Together" in swahili language, expresses the intention to avoid any charity, working all together !!!

The Italian and African people, work together with the same level of dignity, with the aim of improving the welfare among the Kenyan communities, but also to understand and grow each other...

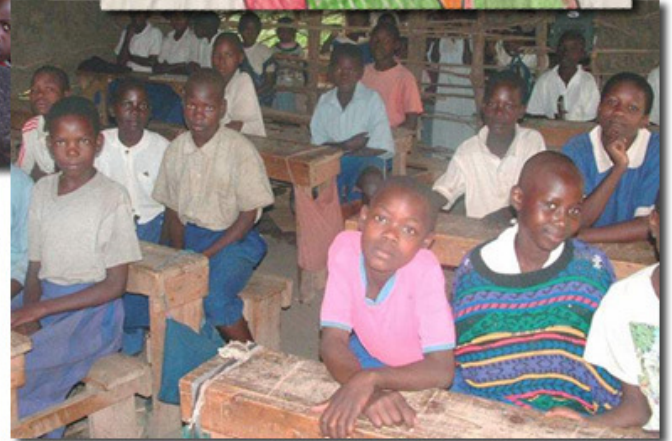

The main feature of project is that one to avoid welfarism and, on the contrary, to help local people to develop independently. The first problem to resolve in order to carry welfare was that one of the water: the aqueduct built has led... Drinkable water available on a large region for about 20.000 people and the Decrease of infectious diseases!

Since 2002 was born the twinning plan of collaboration between the Italian and Kenyan schools (primary and secondary). The work of building for new schools is continuous and requires great aid and assistance: to give everyone the opportunity to study and grow together!

Up to now, the schools of the region of the Gwassi involved are twelve: the eleven primary schools of God Bura, Kikubi, Kimange, Kimoro, Kirambo, Kisaku, Kiwa, Miramba, Nyandiwa, Nyenga, Pundo and the secondary school of God Bura.

**"SECOND TO NONE!"**

Something to look at in our vision and mission is the task to produce first class teachers in this nation and the world.

Something to look at Under the big umbrella of the project IKSDP Harambee Gwasssi lies the Teachers College which is the first of its kind in the whole of Suba District. The college is doing the admission of new students, second intake. It is under good management with professional tutors who have good academic excellence and with outstanding performance in co-curricula activities.

The Tailoring Laboratory, near the Scout centre of Nyandiwa, was prepared with the intention to reach the professional training and to promote the self-development, the small local enterprises and the self-sustaining of the Centre and of the project. The laboratory started working with 6 employed people, making the Scouts' uniforms of Kenya, of the schools and also now does the production of bags which are sold both locally and internationally.

Inside the Scout Centre, they have chosen to realize structures and activity of public utility: the Social Hall has become indeed a place of aggregation for the local population and besides a lot of young groups ask to be able to use the spaces and the structures for assemblies and conferences. It's furnished with the teleconferencing items for over 1000 people. The Hall is rented at Ksh.1,500 per day (KES - Kenyan Shilling, about 18,5 \$).

The present conditions of the breeding and fishing in the peninsula of Nyandiwa are worrying a lot and can cause serious consequences, even for the basic feeding of the population. The projects, to increase of the feeding products available for the population, are 3: the breeding of the egg-maker hens, the breeding of the cat fish in the ponds and the experimentation of the first milk cow breeding in Nyandiwa and surroundings.

The Medical Dispensary in Kisaku (about 20 km far from Nyandiwa) since its opening has been working, self managed by local expert personnel, with the satisfaction of population. The rooms of the Scout Centre are lent to local to local doctor, chosen and paid by community.

Another enterprise in the health field is the prevention, teaching the hygienic habits, the causes of the most common diseases and the possibilities to prevent them. The alliance with Save the Children has brought to create a support activities for developpe the information against the AIDS diffusion.

The goal: change those behaviours, like the occasional sexual intercourse without protection that contribute to the diffusion of the virus.

The jatropha plantations spread to new areas through financial assistance from the the society Petroltecnica of Rimini. The collection of seeds produced by plants serve to draw an oil can be used as alternative energy for lighting, cooking food, the production of biogas and biodiesel.

In addition, soap, glycerin, candles and agricultural fertilizers.

The project currently employs 8 people permanently.

On the grounds of the plantation was located a ground water (probably drinking) and is digging a well. The building that will be used for the storage and the equipment for processing of seeds are being completed.
